## WORK EXPERIENCE

● AUGUST 2021 - PRESENT

### SENIOR SOFTWARE ENGINEER

GODADDY INC.

Within GoDaddy, I've touched many projects. Primarily, I shipped features and did housekeeping on the GoDaddy Studio product.

- Migrate web infrastructure from GCP to AWS.
- New features in React, RxJS, MobX and TypeScript.
- Establish and execute contracts with native engineers.

● APRIL 2019 - FEBRUARY 2022

### CO-FOUNDER

SITESTACK

Sitestack provided various IT solutions including:

- Domain acquisition, WordPress and email hosting.
- Custom software development projects.
- Ad-hoc consulting services.

We sold the business to a new owner in early 2022.

● NOVEMBER 2018 - JULY 2021

### SOFTWARE ENGINEER

BAZARUTO

I contributed to a large-scale travel system, integrating with external booking and pricing systems.

- End-to-end solutions in Ruby on Rails and React.js.
- Comprehensive testing suites in Mocha & Cucumber.
- Write and manage PostgreSQL database migrations.

● JANUARY 2017 - OCTOBER 2018

### JUNIOR SOFTWARE ENGINEER

SUPRA TECHNOLOGIES

I collaborated with a backend engineer in a new division to create a social media lead generation tool.

- Development in HTML, SCSS, and Vue.js.
- Manage DevOps processes for frontend stack.
- Integrate with REST API services.
